We are wise enough to hold nuance, to take what resonates and leave what doesn't, and to question everything - not from a neurotic, obsessive further position, but from a position of childlike wonder and curiosity.

**We, The Way Forward**

We understand that fear is the greatest weapon and that authenticity, love, community and coherence are the greatest antidotes.

The Way Forward is the first community I've found where all parts of myself belong. It weaves together the many threads I value:

- \* Sacred reverence for life
- \* Childlike curiosity
- \* The courage to question old paradigms
- \* Trust in the body's natural healing capacity
- \* Non-judgment
- \* Strength in subtle energy and consciousness
- \* Stepping into a new world or power to co-create

Here, I feel encouraged to root in embodied knowing, to grow local connections, and to cultivate compassion.

We understand that pain can serve as a catalyst for beauty and profound

Alec Zeck, founder of The Way Forward, captures this spirit in five simple "we" statements:

"We were aware of what's going on in the world, but we're not fixated on it. We're incredibly hopeful."

We're aware of this experience called life. We understand that the greatest currency is our attention and the greatest agent of change is each and every one of us. And it starts within.
